

COMMISSIONERS JEFF HATCH-MILLER - Chairman WILLIAM A. MUNDELL MARC SPITZER MIKE GLEASON KRISTIN K. MAYES

ARIZONA CORPORATION COMMISSION

DATE:

January 31, 2006

DOCKET NO:

W-01445A-05-0469

TO ALL PARTIES:

Enclosed please find the recommendation of Administrative Law Judge Amy Bjelland. The recommendation has been filed in the form of an Opinion and Order on:

ARIZONA WATER COMPANY

(CC&N EXTENSION)

Pursuant to A.A.C. R14-3-110(B), you may file exceptions to the recommendation of the Administrative Law Judge by filing an original and thirteen (13) copies of the exceptions with the Commission's Docket Control at the address listed below by 4:00 p.m. on or before:

FEBRUARY 9, 2006

The enclosed is NOT an order of the Commission, but a recommendation of the Administrative Law Judge to the Commissioners. Consideration of this matter has tentatively been scheduled for the Commission's Open Meeting to be held on:

FEBRUARY 14 AND 15, 2006

For more information, you may contact Docket Control at (602)542-3477 or the Hearing Division at (602)542-4250. For information about the Open Meeting, contact the Executive Director's Office at (602) 542-3931.

EXECUTIVE DIRECTOR

1	BEFORE THE ARIZONA CORPORATION COMMISSION				
2	<u>COMMISSIONERS</u>	\$ ·			
3 4 5	JEFF HATCH-MILLER, Chairman WILLIAM A. MUNDELL MARC SPITZER MIKE GLEASON KRISTIN K. MAYES				
6 7 8	IN THE MATTER OF THE APPLICATION OF ARIZONA WATER COMPANY FOR AN EXTENSION OF ITS CERTIFICATE OF CONVENIENCE AND NECESSITY.	DOCKET NO. W-01445A-05-0469 DECISION NO OPINION AND ORDER			
9	DATE OF HEARING:	December 9, 2005			
10	PLACE OF HEARING:	Phoenix, Arizona			
1	ADMINISTRATIVE LAW JUDGE:	Amy B. Bjelland			
12	APPEARANCES:	Mr. Robert Geake, Vice President and General Counsel, Arizona Water Company, on behalf of Applicant;			
14 15		Mr. David Ronald, Staff Attorney, Division, on behalf of the Utilities Divis the Arizona Corporation Commission; and			
6		Mr. Thomas Campbell, LEWIS AND R LLP, on behalf of the City of Eloy.	COCA,		
8	RV THE COMMISSION:				
9	On June 30, 2005, Arizona Water Company ("Arizona Water", "AWC", or "Applicant") filed				
20	with the Arizona Corporation Commission ("Commission") an application for an extension of its				
21	existing Certificate of Convenience and Necessity ("CC&N") to provide water service in portions of				
22	Pinal County, Arizona.				
23	Notice of the application was provided in accordance with the law.				
24	On October 26, 2005, Arizona Water filed its Certificate of Filing Franchise for the City of				
25	Casa Grande. Its franchise to operate in Pinal County was filed with its application.				
26	On November 2, 2005, the City of Eloy ("Eloy") applied for intervention in this matter				
27	Eloy's request for intervention was granted by Procedural Order on November 17, 2005.				
28	On November 10, 2005 the Commission's Utilities Division Staff ("Staff") filed its Staf				

1	Report recommending approval of the application with conditions.			
2	* * * * * * * * *			
3	Having considered the entire record herein and being fully advised in the premises, the			
4	Commission finds, concludes, and orders that:			
5	FINDINGS OF FACT			
6	Background of Application			
7	1. Pursuant to authority granted by the Commission, Arizona Water is an Arizona			
8	corporation that provides water utility service to approximately 73,000 customers in various portion			
9	of Cochise, Coconino, Gila, Maricopa, Navajo, Pima, Pinal and Yavapai Counties in Arizona.			
10	2. On June 30, 2005, Arizona Water filed with the Commission an Application for an			
11	extension of its existing CC&N to provide water service in portions of Pinal County, Arizona. The			
12	proposed extension area includes over 1,500 acres contained in eight non-contiguous parcels in and			
13	around the cities of Casa Grande and Eloy.			
14	3. On July 21, 2005, Staff filed an Insufficiency Letter.			
15	4. On August 30, 2005, Arizona Water filed Additional Information in Response to			
16	Staff's Insufficiency Letter.			
17	5. On September 7, 2005, Staff filed a Letter of Sufficiency.			
18	6. On September 26, 2005, a Procedural Order issued setting forth deadlines for filings in			
19	this docket.			
20	7. Notice of the application was provided in accordance with the law.			
21	8. On October 26, 2005, Arizona filed its Certificate of Filing Franchise for the City of			
22	Casa Grande.			
23	9. On November 2, 2005, Eloy applied for intervention in this matter. Eloy's request for			
24	intervention was granted by Procedural Order on November 17, 2005.			
25	10. On November 9, 2005, Staff filed a Motion for Extension of Time to file its Staff			
26	Report until November 17, 2005 and for a similar extension of time for Arizona Water to file it			
27	response. This request was granted by Procedural Order on November 10, 2005.			
28	11. On November 10, 2005, Eloy filed its Notice of Filing Direct Testimony of Doug			

Olson and Staff filed its Staff Report. Staff recommended approval of the application with conditions.

- 12. On December 1, 2005, in response to Staff's recommendation in its Staff Report, Arizona Water filed its Notice of Filing Revised Legal Description. On this same date, Arizona Water also filed its Responses to the Staff Report and City of Eloy's Testimony.
- 13. A hearing convened on December 9, 2005, before a duly authorized Administrative Law Judge of the Commission. Each party appeared with counsel. At hearing, without objection, Arizona Water orally amended its application to remove Parcel 2, doing so at the request of the landowner of Parcel 2, and Staff introduced, without objection, Staff's revised recommendations. At the conclusion of the hearing, the matter was taken under advisement pending docketing of late-filed exhibits.
- 14. On January 4, 2006, the City of Eloy filed its Notice of Filing Late Filed Exhibit showing the current City of Eloy municipal boundary. Staff filed its Notice of Filing Late Filed Exhibit showing certificated water companies located and operating within Eloy's planned development area.
- 15. On January 13, 2006, Eloy filed its Response to the Arizona Corporation Commission Staff's Late Filed Exhibit.
 - 16. On January 25, 2006, Eloy filed its Notice of Filing Late-Filed Exhibit.

Water System

17. Staff stated that Arizona Water's Casa Grande system has 14 wells producing 15,240 gallons per minute ("GPM"), 14.192 million gallons of storage capacity, and a distribution system serving 17,707 service connections as of June 2005. Staff stated that based on its existing well production and storage capacities, the Casa Grande system can serve approximately 20,600 service connections. Staff stated that the total customers to be served in the expansion area at total build out are anticipated to be 4,920. Staff stated that based on Arizona Water's historical growth rates, its existing Casa Grande service area could grow to approximately 25,500 connections at the end of five years. Arizona Water indicated in its application that it would be at least five years before it would serve its first customer in Parcels 4, 5, 6, 7 and 8 and predicts 80 additional connections for the

proposed CC&N extension areas at the end of five years, resulting in a projected total customer base of approximately 25,900 in the Casa Grande system at the end of five years.

- 18. Staff concluded that the existing Casa Grande system will have adequate production and storage capacity to serve the existing and proposed CC&N extension areas within a conventional five year planning period and can reasonably be expected to develop additional production and storage as required in the future.
- 19. Arizona Water plans to finance the required utility facilities through advances in aid of construction, which generally take the form of Main Extension Agreements ("MXAs"). MXAs between water utilities and private parties are governed by A.A.C. R14-2-406, and result in developer construction of the facilities, conveyance of the facilities to the utility company, and a refund by the water utility of ten percent of the annual revenue associated with the line to the developer for a period of ten years. Staff recommended that Arizona Water file with Docket Control, as a compliance item in this docket, a Notice of Filing indicating that Arizona Water has submitted for Staff's review and approval a copy of the fully executed MXAs for water facilities to each parcel within the extension area, except for Parcel 1¹, within two years of a decision in this case.
- 20. Arizona Water plans to provide water utility service to the extension area under its authorized rates and charges.
- 21. Staff stated that the Arizona Department of Environmental Quality ("ADEQ") regulates Arizona Water's Casa Grande water system under ADEQ Public Water System I.D. #11-009. Staff further stated that based on compliance information submitted by Arizona Water, the system has no deficiencies and ADEQ has determined that this system is currently delivering water that meets ADEQ water quality standards.
- 22. Arizona Water is located within the Pinal Active Management Area ("AMA"), one of five AMAs in Arizona designed to address water supply needs of each area and designated as such by the Arizona Department of Water Resources ("ADWR"). Staff stated that the goal of the Pinal AMA is to allow the development of non-irrigation water uses, extend the life of the agricultural economy

¹ Parcel 1 was thought by Arizona Water to be within the existing CC&N, and service to this parcel has been in effect since 1962. Through Staff's review of other matters in and around Casa Grande, Applicant learned that this parcel was not within its CC&N service area.

25

26 27

28

for as long as feasible, and preserve water supplies for future non-agricultural uses. Arizona Water is subject to the reporting and conservation rules of ADWR, and Staff stated that ADWR has indicated that Arizona Water is in compliance with the Pinal AMA requirements.

- Staff recommended that Arizona Water be required to file with Docket Control, as a 23. compliance item in this docket, a copy of the developers' Certificates of Assured Water Supply, stating that there is adequate water supply, where applicable or when required by statute, within two years of the effective date of the Decision in this matter.
- Rules established by the United States Environmental Protection Agency ("EPA") 24. require the maximum contaminant level ("MCL") for arsenic in potable water to be reduced from 50 parts per billion ("ppb") to 10 ppb, effective January 23, 2006.
- Arsenic levels for the Casa Grande system's wells range from 7 ppb to 45 ppb. Staff 25. stated that Arizona Water is developing a treatment plan to comply with the new arsenic standard. The Commission approved an accounting order authorizing the deferral of certain costs and expenses related to arsenic treatment that Arizona Water expects to incur for its Western Group, which includes its Casa Grande system and the extension area, in Decision No. 67518 (January 20, 2005). An accounting order is a rate-making mechanism whereby a regulatory commission provides specific deferral authorization to treat costs in a manner that differs from generally accepted accounting principles. Such a deferral mechanism is permitted, pursuant to an authorized accounting order, under National Association of Regulatory Utility Commissioners ("NARUC") Uniform System of Accounts ("USOA") guidelines.
- 26. Staff stated that a Curtailment Plan Tariff ("CPT") is an effective tool to allow a water company to manage resources during periods of water shortages due to pump breakdowns, droughts, or other unforeseeable events. Arizona Water has an approved CPT for "All Service Areas" pursuant to Decision No. 66235 (July 23, 2004).

Staff's Recommendations

27. Staff recommended that the Commission approve Arizona Water's application for extension of its existing CC&N to provide water service in Pinal County subject to Arizona Water's compliance with the following conditions:

- (a) That AWC file with Docket Control an amended legal description excluding the Parcels that are within the corporate city limits of the City of Eloy, specifically Parcels 2 and 8, prior to the hearing in this matter.
 - (b) That AWC charge its authorized rates and charges in the extension area.
- (c) That AWC file with Docket Control, as a compliance item in this docket, a Notice of Filing indicating AWC has submitted for Staff's review and approval, a copy of the fully executed main extension agreements for water facilities for each parcel within the extension area, except for Parcel 1, within two years of the Decision in this case.
- (d) That AWC file with Docket Control, as a compliance item in this docket, a copy of the Arizona Department of Environmental Quality Approval to Construct ("ATC") for the facilities needed to serve each of the Parcels within the requested areas, except for Parcel 1, within two years of the Decision in this case.
- (e) That AWC file with Docket Control, as a compliance item in this docket, a copy of the developers' Certificates of Assured Water Supply for each of the Parcels within the requested areas, except for Parcel 1, stating that there is adequate water supply, where applicable or when required by statute, within two years of the Decision in this case.
- (f) That the Commission's Decision granting the requested CC&N extension be considered null and void if AWC fails to meet conditions (c), (d), and (e) listed above within the time specified.
- 28. AWC filed with Docket Control an amended legal description excluding the Parcels that are within the corporate city limits of the City of Eloy, specifically Parcels 2 and 8, prior to the hearing in this matter and therefore this condition is satisfied. However, AWC continues to seek to include Parcel 8 in its CC&N request.

Parcel 1

- 29. Arizona Water currently serves approximately 200 existing service connections in Parcel 1 and is projecting to increase to 230 connections within five years. At build out, this parcel could have approximately 1,000 connections.
 - 30. Consistent with Staff's recommendation, we believe it is in the public interest to grant

1 Arizona Water's application for CC&N extension to Parcel 1.

Parcel 2

31. As stated above, at hearing, Arizona Water orally amended its application to remove Parcel 2, doing so at the request of the landowner of Parcel 2.

Parcel 3

- 32. Parcel 3 is contiguous to Arizona Water's existing CC&N located to the west of Eloy and south of Casa Grande and contains approximately 618 acres. Although at build out, Applicant anticipates approximately 1,500 customers, Arizona Water anticipates no new customers within the first year for Parcel 3 and only 25 customers within five years.
- 33. Staff recommended inclusion of Parcel 3 in the CC&N extension. Parcel 3 is outside, but contiguous to Eloy's municipal boundary and is located within Eloy's planned development area. Eloy objected to extending Arizona Water's CC&N to Parcel 3. Eloy's main concern appears to be the potential cost to be borne in the future by Eloy and its taxpayers via an eminent domain proceeding if or when Eloy annexes Parcel 3.
- 34. Jacqueline Warren, owner of Parcel 3 with her husband, testified that she asked Arizona Water to expand its certificated area to include her property. She stated that with regard to sewer service, a sewer utility is located near Parcel 3 that could provide service to her parcel. Mrs. Warren testified that at this time, she and her husband farm their land.
- 35. Mrs. Warren testified that she and her husband wish to obtain water utility service prior to marketing their parcel to developers, and to this end they requested service of Arizona Water. Eloy is concerned for the potential cost borne by the taxpayers via the just compensation requirement of eminent domain. Although this concern is reasonable, Parcel 3 is not within Eloy's city limits and Eloy provided no timeframe for when service would be provided.
- 36. Based on the existing request for service and Arizona Water's ability to provide that service, consistent with Staff's recommendation, we believe it is in the public interest to grant Arizona Water's application for CC&N extension to Parcel 3.

Parcels 4, 5, 6, and 7

37. Each of these parcels is located several miles from Arizona Water's existing

distribution mains. Parcel 4 consists of approximately 320 acres; Parcel 5 of approximately 300 acres; Parcel 6 of approximately 164 acres; and Parcel 7 of approximately 85 acres. Staff stated that water service to these parcels will depend upon construction of other planned developments to bring the water closer to these parcels before their development.

- 38. Staff stated that at build out, Parcel 4 could have about 400 customers; Parcel 5 about 200 customers; Parcel 6 about 150 customers; and Parcel 7 about 150 customers.
- 39. Consistent with Staff's recommendation and based upon the requests for service to these parcels, we believe it is in the public interest to grant Arizona Water's application for CC&N extension to Parcels 4, 5, 6, and 7.

Parcel 8

- 40. This parcel contains approximately 40 acres and is located several miles from Arizona Water's existing distribution mains. Staff stated that water service to this parcel will depend upon construction of other planned developments to bring the water closer to this parcel before its development. Arizona Water stated in its Application that it anticipates no new customers within the first five years and that at build out, Parcel 8 could have about 20 customers. However, at hearing, the owner of Parcel 8 testified that he prefers to begin development as soon as possible.
- 41. Parcel 8 is within Eloy's city limits, and Staff did not recommend inclusion of Parcel 8 in Applicant's CC&N extension. Eloy objected to extension of Applicant's CC&N to this parcel.
- 42. Arizona law requires every applicant for a CC&N or CC&N extension to submit evidence to the Commission that the applicant has received consent, franchise or permit from the proper authority prior to being granted the CC&N or CC&N extension. Specifically, Section 40-282(B), Arizona Revised Statutes, requires "[e]very applicant for a certificate [to submit] evidence...to show that the applicant has received the required consent, franchise or permit of the [applicable government authority]." Arizona Water does not have a franchise agreement or other consent to operate within the City of Eloy. Staff stated that the inclusion of Parcel 8 in the CC&N extension as proposed by Arizona Water may create an infringement or encroachment without permission if approved by the Commission. For this reason, Staff requested of Arizona Water, and Arizona Water docketed, a revised legal description excluding Parcel 8 prior to the hearing.

43. In the instant case, Eloy has clearly stated that Arizona Water has no such consent, franchise or permit; and Doug Olson, Water/Wastewater System Manager for the City of Eloy, testified that Eloy would not grant such authority within its city limits as Eloy desires to serve its own constituents within its municipal boundaries. However, there is nothing in the record to show that Eloy has already denied a franchise or other consent to Arizona Water to operate within its municipal boundary.

- 44. Mr. Olson further stated Eloy's concern with having various water companies located within the city limits is that the public interest would be harmed as Eloy would be required to use eminent domain and its associated requirement of compensation, using taxpayer money, to the holder of the interest in the condemned property prior to inclusion in Eloy's water system. Eloy stated that Parcel 8 is surrounded by planned developments that the city is currently working on with developers so that Eloy will be able to serve the parcel by the time any development occurs.
- 45. Derrick Ethington, owner of Parcel 8, testified that he asked Arizona Water to expand its certificated area to include his property. Regarding sewer service, he stated his wish to develop one-acre residential lots that will enable the use of a septic system. Mr. Olsen testified that he does not believe Mr. Ethington will be allowed to have septic tanks pursuant to county code.
- 46. Mr. Ethington further testified that he requires water service to develop his property, that he has a complete plat application pending with Eloy, and that he hopes to develop Parcel 8 within the next six months. He testified that he submitted a request for service to Arizona Water because Eloy would be unable to provide water consistent with his desired timeframe for service, and because Eloy's water main was six miles from his property and would be more financially burdensome for him to connect than Arizona Water's water main, which is only one mile from his property. However, Mr. Olsen testified that to his knowledge, and based upon conversation with the Planning and Zoning Director of Eloy, Mr. Ethington has not submitted all of the information required for a preliminary plat application.
- 47. Because the landowner has demonstrated need and requested service and no other provider is available to provide service in a timely manner, and because Eloy has not taken official action to either approve or deny Arizona Water a franchise, we believe granting an Order Preliminary

to a CC&N is appropriate for Parcel 8. Staff's Late Filed Exhibit shows other regulated water companies to be located within the City of Eloy's planning area. Eloy pointed out that all of the water companies within the current planning area received their CC&Ns prior to the establishment of Eloy's current boundaries. Nonetheless, Arizona Water has a request for service to this parcel and is ready, willing and able to provide service. An Order Preliminary to a CC&N will give Arizona Water the opportunity to request official action of Eloy regarding a franchise for operation within Eloy's municipal boundary. Based on Mr. Ethington's desired timeframe for development, this is the most equitable result.

- 48. We will therefore require that Arizona Water file, within one year of this Decision, as a compliance item in this docket, evidence that it has obtained a franchise or other consent from Eloy for the purpose of providing water utility service within Parcel 8. If the franchise or other consent to operate within Parcel 8 is not granted by Eloy within one year from the date of this Decision, then the Order Preliminary shall be null and void.
- 49. Because an allowance for the property tax expense of Arizona Water is included in the Company's rates and will be collected from its customers, the Commission seeks assurances from the Company that any taxes collected from ratepayers have been remitted to the appropriate taxing authority. It has come to the Commission's attention that a number of water companies have been unwilling or unable to fulfill their obligation to pay the taxes that were collected from ratepayers, some for as many as twenty years. It is reasonable, therefore, that as a preventative measure Arizona Water annually file, as part of its annual report, an affidavit with the Utilities Division attesting that the company is current in paying its property taxes in Arizona.

CONCLUSIONS OF LAW

- 1. Arizona Water is a public service corporation within the meaning of Article XV of the Arizona Constitution and A.R.S. §40-281 *et seq*.
- 2. The Commission has jurisdiction over Arizona Water and the subject matter of the application.
 - 3. Notice of the application was provided in accordance with law.
 - 4. There is a public need and necessity for water utility service and this requires issuance

of an Order Preliminary to the approval of an extension of Arizona Water's CC&N authorizing it to construct, operate and maintain facilities to furnish water service in Parcel 8, described in Exhibit A.

- 5. Arizona Water is a fit and proper entity to receive an Order Preliminary to the extension of its water CC&N to include the service area more fully described in Exhibit A attached hereto.
- 6. The application by Arizona Water to extend its CC&N to the area described in Exhibit A should be granted subject to an Order Preliminary being issued prior to a CC&N subject to obtaining a franchise or other consent to operate within the municipal boundary of the City of Eloy within one year of the date of this Decision.
- 7. There is a public need and necessity for water utility service in the proposed extension areas described in Exhibit B².
- 8. Arizona Water is a fit and proper entity to receive an extension of its water CC&N to include the service areas more fully described in Exhibit B attached hereto, subject to compliance with the conditions set forth above.

ORDER

IT IS THEREFORE ORDERED that pursuant to A.R.S. § 40-282(D), this Order Preliminary to the issuance of the Certificate of Convenience and Necessity is granted and upon the granting of a franchise or other consent to operate within the municipal boundary of Eloy, Arizona Water Company shall file a motion in this docket for the issuance of a Certificate of Convenience and Necessity authorizing it to construct, maintain and operate facilities to provide water service to the public in the area more fully described in Exhibit A.

IT IS FURTHER ORDERED that upon the motion of Arizona Water Company and verification of satisfaction of the requirements for the issuance of the Certificate of Convenience and Necessity for the area described in Exhibit A, Staff shall prepare and docket an Order that grants the Certificate of Convenience and Necessity for Commission approval.

IT IS FURTHER ORDERED that in the event Arizona Water Company does not obtain a

DECISION NO.

 $^{^{2}}$ Parcels 1, 3, 4, 5, 6, and 7.

franchise or other consent to provide water utility service to the area described in Exhibit A within one year of the date of this Decision, then the Order Preliminary approved herein shall be deemed null and void. In such event, Staff shall file a memorandum to close this docket.

IT IS FURTHER ORDERED that the application of Arizona Water Company extension of its water Certificate of Convenience and Necessity, to include the areas described in Exhibit B attached hereto and incorporated herein by reference be, and is hereby approved, subject to the conditions set forth in the following Ordering Paragraphs.

IT IS FURTHER ORDERED that Arizona Water Company shall charge its authorized rates and charges in the extension area.

IT IS FURTHER ORDERED that the Commission's Decision granting the requested CC&N extension be considered null and void if Arizona Water Company fails to meet the conditions contained in the following three Ordering Paragraphs within the time specified.

IT IS FURTHER ORDERED that Arizona Water Company file with Docket Control, as a compliance item in this docket, a Notice of Filing indicating Arizona Water Company has submitted for Staff's review and approval, a copy of the fully executed main extension agreements for water facilities for each parcel within the extension area, except for Parcel 1, within two years of this Decision.

IT IS FURTHER ORDERED that Arizona Water Company file with Docket Control, as a compliance item in this docket, a copy of the Arizona Department of Environmental Quality Approval to Construct for the facilities needed to serve each of the Parcels within the requested areas, except for Parcel 1, within two years of this Decision.

IT IS FURTHER ORDERED that Arizona Water Company file with Docket Control, as a compliance item in this docket, a copy of the developers' Certificates of Assured Water Supply for each of the Parcels within the requested areas, except for Parcel 1, stating that there is adequate water supply, where applicable or when required by statute, within two years of this Decision.

pply, where applicable or when required by statute, within two years of this Decis.
.

DECISION NO.

1	IT IS FURTHER ORDERED that Arizona Water shall annually file as part of its annual		
2	report, an affidavit with the Utilities Division attesting that the Company is current in paying its		
3	property taxes in Arizona.		
4	IT IS FURTHER ORDERED that this Decision shall become effective immediately.		
5	BY ORDER OF THE ARIZONA CORPORATION COMMISSION.
